The book provides in-depth information and discusses what you need to get started in the chapter on "Equipment and Materials," and thoughtfully provides a listing of Suppliers on where to purchase specialty materials and equipment at the back of the book.

The chapter entitled, "Recipes," provides essential recipes including how to make "cold porcelain," "royal icing," and "flowerpaste," and I found the chapter on "Techniques" to be especially helpful as it not only provides expert tips, it always explains "the how" and "the why."

Ruby Birthday

Armed with my new found knowledge, I read the chapter on how to create, "Flowers, Fruits, and Nuts," with wild abandon. Alan Dunn guides the reader on how to make sensational, realistic-looking artistic flowers including Fringed nigella, Sweet violet, Rose, Peony, and Lilac, how to create vegetables including

Asparagus and Radish, as well as Hazelnuts, and even a Fantasy Butterfly, to name but a few of the many creations that dazzled my eyes; the possibilities are endless.

The last chapter is dedicated to "Celebration Cakes" and has wonderful designs for christenings, birthdays, anniversaries, engagements, weddings, Valentine's Day, and many more, and includes patterns to help you create the designs. The photographs throughout the book are simply irresistible in-mouth-watering color to inspire flights of fantasy.
